TEJA (S17)

SHU: 50,000 - 100,000

ASTA: 60-100

Length: 6-9 cm (Without Stem)

Capsaicin content: 0.589 %

Very high heat level, deep red glossy skin. Widely used in spice blends, pickles, sauces, and also valued in pharma/cosmetics.

SANNAM (334/S4/S20)

SHU: 25,000 - 35,000

ASTA: 50-80

Length: 5-8 cm (Without Stem)

Moderately spicy, medium pods with thick skin. Popular in powders, pickles & sauces; strong demand in domestic & export markets.

BAYADGI

SHU: 8,000 - 15,000

ASTA: 100-160

Length: 7-12 cm (Without Stem)

Mild heat level, long wrinkled pods, deep red. Famous for rich natural color, widely used in spice blends, sauces, and food coloring.

GUNTUR-341 (US-341)

SHU: 35,000 - 50,000

ASTA: 40-60

Hot and aromatic, long bright red pods with thick skin.

Widely used in chili powders, sauces & pickles; popular in Asian & European markets.

* Other varieties of chillies can also be provided based on order size and local availability
